

WOOLFOLK CONSTRUCTION, INC.

COMMERCIAL GENERAL CONTRACTORS

MIDLOTHIAN FAMILY YMCA Midlothian, Virginia

The Board of Managers for the Midlothian Family YMCA was faced with a pent-up demand for wellness/fitness areas, aerobics, indoor aquatics and multi-purpose rooms. In an effort to get the project on line quickly, we worked jointly with the structural engineer and architect to fast-track the steel and foundation construction. This allowed the design team time to finalize the balance of the documents. Pre-construction cost models were developed to provide budgeting assistance to the architect and client before embarking on the fast-track schedule.
